PERFIL PROFESIONAL

Junior Full Stack Web Developer with hands-on experience building complete web applications, including both frontend and backend.

Specialized in PHP and Python (Django), with experience developing dynamic, database-driven applications. Focused on writing clean, maintainable, and well-structured code following best practices.

10 years of international experience in the UK, with English communication skills and adaptability.

TECH STACK

Languages:

Python · PHP · JavaScript · C# · Java

Frontend:

HTML · CSS · Bootstrap

Backend:

Spring · Hibernate · Django

Databases:

MySQL · SQLite · Oracle · MongoDB

Tools:

Git · Docker · WordPress · Unity

PROJECTS

Django Web Application

- Developed a full web application using Python and Django
- Implemented business logic and data management
- Used templates, routing, and MVC architecture
- Integrated relational database

Travel Blog (WordPress)

- Developed and managed a content-based blog using WordPress
- Customized themes and website structure
- Implemented on-page SEO optimization (structure, content, tags)
- Managed and published content

Sports Management Simulator (Unity + C# + SQLite)

- Developed a Football Manager-style application
- Designed modular multi-screen UI (UI Toolkit)
- Implemented persistent data handling with SQLite
- Built complex business logic

Django Web Application ISS Tracker

- Development of a Python/Django web application for real-time ISS tracking
- Ingestion and processing of historical and live data using Pandas
- Statistical visualization with Matplotlib and dynamic charts in the web interface
- Implementation of an interactive map with Leaflet and data exposure through a REST API

Django Web Application EducationMetrics

- Developed using Python and Django focused on global educational data analysis.
- Implementation of business logic to compute comparative metrics between countries
- Use of Django templates, routing, and the MTV architecture pattern
- Integration with MongoDB and data processing using Pandas

RELEVANT EXPERIENCE

NCA SMART (Madrid)

Web Developer | 2025

- Improved SEO and website performance
- Implemented frontend updates
- Maintained WordPress sites

EDUCATION

Higher Vocational Training – Software Application Development

I.E.S. Luis Vives - Leganés

ADDITIONAL TRAINING

Data Development & Visualization with Python (150h)

Spring & Hibernate Development (100h)

Video Game and Virtual Reality Development with Unity 3D (300h)

Web Application Development (590h)

General English Course – Liverpool (360h)

COBOL Development (360h)

IBM WebSphere Portal Server (190h)

Java Functional Analyst (260h)

Web & Multimedia Design (230h)

LANGUAGES

Spanish - Native

English - B2 (Professional working proficiency)
